New Child and Adult Care Food Program Meal Patterns
Agenda

• Infant meal pattern
• Child and adult meal pattern
• Other Child Nutrition Programs
• Best practices
• Implementation plan
NEW INFANT MEAL PATTERN
Infant Age Groups and Solid Foods

• Two age groups: 0-5 months and 6-11 months
• This was done to encourage exclusive breastfeeding for the first six months of life.
• This new meal pattern matches the Infant age group for WIC.
Infant Age Groups and Solid Foods

- Solid foods are allowed when developmentally appropriate for the infant.
- This new rule is flexible and will require communication between the child care center and the parent/guardian.
### Gradual Introduction of Solid Foods

Breastfeeding and Infant Snack

- Meals may be reimbursed when a mother breastfeeds on-site
- A vegetable or fruit must be served at snack for older infants; prohibits juice
- Ready-to-eat cereals are allowed at snack for older infants
Meat and Meat Alternates

- Allows cheese, cottage cheese, and yogurt
- The current meal patterns allow cheese food and cheese spread. Those are not allowed under the new infant meal pattern due to their high sodium content.
Meat and Meat Alternates

• Whole eggs

• Previously, only egg yolks were allowed due to concerns with developing food allergies when infants are exposed to the protein in the egg white.
Questions?
NEW CHILD AND ADULT MEAL PATTERNS
New Age Groups

• The new meal patterns includes a new age group for children: 13 through 18 year olds.
• The meal pattern requirements are the same as the 6 through 12 year olds.
Vegetables and Fruit

- Creates a separate vegetable component and a separate fruit component
Vegetables and Fruit

- Allows two vegetables at lunch and supper
- Allows centers and day care homes to serve a vegetable and fruit snack for a snack
Vegetables and Fruit

- Limits juice to once per day
Grains

- Requires at least one grain per day to be whole grain-rich
Whole Grain-Rich

- Whole grain-rich = foods that contain **at least 50% whole grains** and the rest are enriched, or contain **100% whole grains**
Grains

- Disallows grain-based desserts

</table>
Grains

- Breakfast cereals must contain no more than 6 grams of sugar per dry ounce
Meat and Meat Alternates

- May substitute the ENTIRE grains component at breakfast a maximum of three times per week
- Allows tofu
Meat and Meat Alternates

- Yogurt must contain **no more than 23 grams of sugar** per 6 ounces
Fluid Milk

- **1 year old children:** whole, unflavored milk
- **2 year olds and older and adults:** low-fat or fat-free milk
- **Adults:** yogurt in place of milk once per day
- **Non-dairy beverages**
Flavored Milk
Flavored Milk

Children 0 through 5 years old

• Prohibits flavored milk

Children 6 years old and older and adults

• Recommends as a best practice that flavored milk contain no more than 22 grams of sugar per 8 fluid ounces
Additional Provisions

- Use of food and beverage for reward or punishment
- Offer and make water available
- Family style meals
- Offer vs. Serve
Additional Provisions

• Parent/guardian provided components
• Child Care Centers Food From Home Policy
Questions?
BEST PRACTICES
Best Practice: Infants

- Support mothers who choose to breastfeed their infants by encouraging mothers to supply breastmilk for their infants while in day care and offer a quiet, private area that is comfortable and sanitary for mothers who come to the center or day care home to breastfeed (Modified)
Best Practices: Vegetables and Fruit

• Make at least one of the two components of snack a vegetable or a fruit
• **Serve a variety** of fruits and choose whole fruits (fresh, canned, frozen, or dried) more often than juice (New)
• Provide at least one serving of each vegetable subgroup per week (Modified)
Best Practices: Grains

• Provide at least **two servings** of whole grain-rich grains per day
Best Practices: Meat/Meat Alternates

• Serve only lean meats, nuts, and legumes
• Limit serving processed meats to no more than one serving per week
• Serve only natural cheeses and choose low-fat or reduced-fat cheese (Modified)
Best Practices: Milk

• **Serve only unflavored milk.** If flavored milk is served to children 6 years old and older, or adults, select and serve flavored milk that contains no more than 22 grams of sugar per 8 fluid ounces (Modified)

• **Serve water** as a beverage when serving yogurt in place of milk for adults (New)
Additional Best Practices

• Incorporate *seasonal and locally* produced foods

• Limit *purchased pre-fried* foods

• Avoid non-creditable foods that *sources of added sugars*

Child and Adult Care Food Program (CACFP)

CACFP provides aid to child and adult care institutions and family or group day care homes for the provision of nutritious foods that contribute to the wellness, healthy growth, and development of young children, and the health and wellness of older adults and chronically impaired disabled persons.

Through CACFP, more than 3.3 million children and 120,000 adults receive nutritious meals and snacks each day as part of the day care they receive.

See how CACFP can make a difference in the quality of your program! Whether you are a provider in your home, at a day care center, in an afterschool care program, or in an emergency shelter, you will find many useful resources for serving nutritious meals and snacks.

- **Tell me about CACFP**
  Here's an overview of how CACFP fits into the FNS safety net to improve access to food and a healthful diet.
  - At-risk Afterschool Care Centers
  - Adult Day Care Centers
  - Child Care Centers
  - Day Care Homes
  - Emergency Shelters

- **Contact your State agency**
  CACFP is a federally-funded program administered by States. Contact your State agency to apply, find a day care home sponsor, or locate a facility that participates.

- **How to manage CACFP**
  Find all of the basic information you need for participating in CACFP, including legislation, regulations, policy, meal requirements, and reimbursement rates.
Child and Adult Care Food Program (CACFP)

Nutrition Standards for CACFP Meals and Snacks

Centers and day care homes offering meals through the Child and Adult Care Food Program (CACFP) play a critical role in supporting the wellness, health, and development of children, older adults, and chronically impaired disabled persons through the provision of nutritious foods. Child care providers, in particular, have a powerful opportunity to instill healthy habits in young children that serve as a foundation for healthy choices in life.

Through the Healthy, Hunger-Free Kids Act, championed by the First Lady and signed by President Obama, USDA made the first major changes in the CACFP meals and snacks since the Program's inception in 1968, which will help ensure children and adults have access to healthy, balanced meals and snacks throughout the day. The new CACFP nutrition standards will help safeguard the health of children early in their lives and improve the wellness of adults.

Under the new CACFP nutrition standards, meals and snacks served will include a greater variety of vegetables and fruit, more whole grains, and less added sugar and saturated fat. In addition, the standards encourage breastfeeding and better align the CACFP with the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) and with other Child Nutrition Programs.

The new standards for meals and snacks served in the CACFP are based on the Dietary Guidelines for Americans, science-based recommendations made by the National Academy of Medicine, cost and practical considerations, and stakeholder's input. These improvements are expected to enhance the quality of meals served in CACFP to help young children learn healthy eating habits early on in their lives and improve the wellness of adult participants.

USDA is providing guidance, resources, best practices, and training for CACFP centers and day care homes to support them in providing healthy, balanced meals and snacks to the children and adults they serve.

Nutrition Standards

New Meal Standards

The updated meal standards for the CACFP are available for public inspection and will be published in the Federal Register on Monday, April 25, 2016. CACFP centers and day care homes must comply with the new meal standards by October 1, 2017.
