National Early Care & Education Learning Collaboratives:
Taking Steps to Healthy Success
Learning Session 4, Family Child Care Edition
Implementation Guide
September 2018
Nemours is currently funded by the Centers for Disease Control and Prevention (CDC) under a six-year Cooperative Agreement (U58DP004102-05-02) to support states in launching ECE learning collaboratives focused on obesity prevention. Funding for these materials and learning sessions was made possible by the CDC. The views expressed in written materials or publications, or by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

Learning Session 4: Getting Kids Moving

Overview

Learning Session 4 provides rationale for the role family child care (FCC) providers play in helping make healthy changes. It explains physical activity and screen time best practices in the family child care home. The session focuses on increasing knowledge and awareness of healthy practices and their impact on young children. During the session, providers are expected to increase their knowledge, awareness, and motivation to work towards healthy change.

Key content includes information on:

- Best practices for physical activity;
- Continuing the process of healthy change through an Action Plan;
- Developing action steps to support policies; and
- Ways to support physical activity through family engagement, and policies.

Post-session (Action Period)

The family child care provider will utilize the Provider Guide to:

- Complete the Nutrition and Physical Activity Self-Assessment for Family Child Care (Go NAP SACC);
- Implement steps identified in the “policy” column of the Action Plan Worksheet; and
- Finalize documenting goals and healthy changes made throughout Learning Session 2 through Learning Session 5 on their storyboard.

Objectives

At the end of the Learning Session, providers will be able to:

1. Describe best practices for physical activity time and identify change opportunities within their program;
2. Finalize the Action Plan and develop action steps for policies; and
3. Finalize documenting the process of healthy changes on their storyboard.
Learning Session 4: Getting Kids Moving

Sample Agenda

The Agenda Template can be found on the *Healthy Kids Healthy Future* website www.healthykidshealthyfuture.org. Feel free to use this as you customize the timing and activities for each Learning Session.

| Check-Out | • Check-Out  |
Check-In (30 min.)

**SET UP:**
Set up the night before if possible. If not, plan on setting up early the day of the training. Refer to the Materials List on page 8 for a complete list of what to set out or store for later. Set out sign-in sheets, nametags, and pens on tables near the main room entrance. In addition:

- Have Learning Session 4 Participant Handbooks ready for distribution;
- Set out materials on tables or distribute throughout the Learning Session:
  - *Best Practices for Physical Activity* guide; and
  - *Tossing & Catching* activity kit.
- Gather materials for physical activity breaks;
- Set up and test all technology: laptop, LCD projector, CD/DVD player (laptop may have this capability), and wireless microphone;
- Set up Show and Tell area (optional) to showcase important resources;
- Set up KWL Chart on large chart paper (optional); and
- Display raffle prizes (optional).

**CHECK-IN:**
It is recommended to begin check-in at least 30 minutes prior to LS4. As providers sign-in, do the following:

- Collect LS3 Action Period materials in envelopes labeled with the provider’s name; and
- Distribute LS4 Participant Handbooks.

**TIPS:**

- Five minutes before start time, begin asking providers to find their seats.
Technical Assistance Groups – LS3 Action Period (30 min.)

Taking Steps to Success Activity

SET UP:

- Prepare PPT: Getting Kids Moving.

ACTION:

- Welcome providers back;
- Congratulate them on completing the LS3 Action Period Tasks;
- Mention housekeeping items:
  - Bathroom locations; and
  - Silencing cell phones.
- Provide an overview of the LS4 Participant Handbook and the agenda.

ACTION:

- Facilitate a group discussion around the “Provider” and “Environment” columns competed on the Action Plan Worksheet in Learning Session 3.
- Place 10 pieces of large chart paper around the room. Label each paper with the following headers:
  - Healthy eating;
  - Provider Health;
  - Family engagement;
  - Screen time;
  - Outdoor play;
  - Healthy beverages;
  - Physical activity;
  - Family-style dining;
  - Policies; and
  - Infant feeding and breastfeeding support.
- Provide the providers with a sticky note and ask them to write down the goal(s) they identified on their Action Plan Worksheet. Providers should use one sticky note per goal;
- Have providers take their sticky note(s) and place it on the corresponding chart paper. Have providers stand by the chart paper their goal(s) falls under; and
  - For example, if a provider created an area for mothers to breastfeed, they would write that on a sticky note and place it on the “Infant feeding and breastfeeding support” chart paper on the wall.
- Ask providers to share the healthy changes they have implemented in their home.
PPT Part A – Supporting Motor Development (15 min.)

**PRESENT:**

**ACTION:**

- Discuss with the providers the importance of supporting motor development.
- Review ways to identify and support children with developmental delays:
  - Provide state and local early intervention programs’ contact information and resources providers can use for additional support; and
  - Encourage providers to share this information with parents and families.
Physical Activity Break

**SET UP:**

- Choose a 1-2 minute physical activity; and
- Gather materials needed for the activity.

**ACTION:**

- Make sure everyone has enough space, and conduct the physical activity you chose.
PPT Part B: Best Practices for Physical Activity (1hr. 15 min.)

PRESENT:

• PPT Part B: Best Practices for Physical Activity.

Video: Move, Play, Learn: Physical Activity in North Dakota Child Care Programs

PLAY:

Move, Play, Learn: Physical Activity in North Dakota Child Care Programs

Note: The PPT contains a prompt to play the Move, Play, Learn: Physical Activity in North Dakota Child Care Programs video. Click on the picture (hyperlink) to start the video.

PRESENT:

• Continue presenting PPT Part B: Best Practices for Physical Activity.

Video: Motor Skill Development

PLAY:

Motor Skill Development: Creative Expressions

Note: The PPT contains a prompt to play Motor Skill Development: Creative Expressions video. Click on the picture (hyperlink) to start the video.

PRESENT:

• Continue presenting PPT Part B: Best Practices for Physical Activity.

ACTION:

• Have providers turn to the Caring for Our Children in Mixed Age Groups handout in the Participant Handbook and facilitate a discussion around ways to engage children of all ages in physical activity.
  – Review the Indoor/Outdoor Activity slides and encourage providers to think of activities they can conduct in their home that will engage children of all ages; and
  – Have providers share different activities they are currently using to promote physical activity.
• Have providers turn to the Head Start Body Start Activity Calendar and Rainy Days Ideas handout in the Participant Handbook. Inform providers that the full Head Start Body Start Activity Calendar can be found on the Healthy Kids Healthy Future website (www.healthykidshealthyfuture.org).

PRESENT:

• Continue presenting PPT Part B: Best Practices for Physical Activity.
Video: Feldenkrais Class by Baby Liv

**PLAY:**

Feldenkrais Class by Baby Liv

*Note:* The PPT contains a prompt to play the Feldenkrais Class by Baby Liv video. Click on the picture (hyperlink) to start the video.

**PRESENT:**

- Continue presenting PPT Part B: Best Practices for Physical Activity.

**ACTION:**

- Distribute the Best Practices for Physical Activity guide; and
- Introduce providers to the different sections.
- A lot of the content discussed today can be found in the Best Practices for Physical Activity guide. This includes:
  - Rules and best practices of physical activity;
  - Rationale;
  - Practical ways to support intentional planning of physical activity recommendations;
  - Recommendations by age group;
  - Sample policies;
  - Family tip sheets; and
  - List of tools for use in the classroom.
- Distribute the Tossing and Catching activity kit;
- Introduce the providers to the different materials inside of the kits; and
- Encourage them to think of ways they can use the kits in their home.
**Special Opportunities**
Family child care home settings provide opportunities for several different age groups to be cared for at the same time. Most experts agree there are many benefits to this type of child care. Educator Lillian Katz in *The Case for Mixed-Age Grouping in Early Education* (NAEYC) 1993, feels that in these “family units” younger members observe, emulate and imitate a wide range of skills. Most younger children are not equally mature in all areas of development. Older children can offer leadership, tutoring experiences and may assume some of the responsibility for less mature and knowledgeable members. She also feels there are greater opportunities for children to develop friendships with others who match, compliment or supplement their own needs and styles.

Children need a sense of community that includes people of all ages, interests and skills. This support enables them to grow into healthy, socially-skilled adults. They can learn empathy, patience and they develop a healthy self-esteem while helping others.

On the business side, caring for several children from different age groups at the same time is a good way to help providers maintain full enrollment. In addition, many families looking for child care for school-age children want to keep all their children together.

**Meeting the Challenges**
Providing child care for children from several age groups can be a great challenge – especially to a new provider. For instance, what do you do when two babies are crying at once? What if a toddler wants to get into the game the “big kids” are playing? Or how do you respond if the “big kids” want to kick a ball where the preschoolers are playing? Through trial and error child care providers have come up with great suggestions. Most providers emphasize planning and organization. They feel that having a routine and planning how the day should be organized are critical factors for success.

**Organizing for Care**
1. Don’t jump into taking the maximum capacity of children you are licensed for right away – start slowly.
2. Put the babies together with supervision. They are fascinated with each other’s faces and behavior.
3. Look for a family that fits into the current group. Consider your own philosophy and compare it with their views on child-rearing.
4. Have a two-week trial period to look at the children’s ages and temperament to see whether they all get along together.
5. Educate yourself about child development. Learn what is developmentally appropriate, what kinds of behaviors are typical at certain ages and how to handle children during their different stages of growth. Resources for child development materials are available in the student library of the local colleges. You may want to enroll in early childhood education classes for a more thorough understanding of child development. Child Action, Inc. offers free workshops throughout the year on child development and their resource library contains videos, books and handouts.
6. Plan enough space so each age group can be on its own while you remain available to supervise.

**Planning the Environment**
Set up play areas and environments for all the ages in your care. Use barriers when needed, such as safety gates, big pillows or furniture. Use barriers sparingly and for short periods of time. You should include an infant or crawler in the group whenever possible.

Consider:
- Holding an infant on your lap while older children are using scissors or working on crafts
- Using an empty wading pool with toys in it to separate babies from rough and tumble play or placing your own body between the two age groups
• Planning different types of activities to meet the needs of each age group
• Having crawlers play on the floor while older ones play board games at the kitchen table
• Doing some activities with older children while others nap
• Having an art activity or a box with all the materials needed for pretend play organized and labeled for easy storage and accessibility
• Going through the house or center and looking at the room from the child’s level. What would the baby see first? What would the toddler or pre-schooler see first? What appeals to the school-age child?

Setting Routines
• Establish a routine that is convenient, works for your group and doesn’t take you away from your supervising role
• Include all children in cleanup and preparation for the next activity
• Consider the children’s ages, individual needs and interests
• Plan transitions between activities carefully, so everyone gets to the next activity without a rush.

Mealtime Success
• You may have to eat in shifts, feeding infants on demand, settling them down and then feeding the others. But your goal should be to have all the children eating together whenever possible. Family-style meals include an adult sitting with the children, modeling table manners, enjoying conversation and sharing information about nutritious foods. Children will want to eat what others are eating, but be careful you’re not comparing one child’s appetite or food preference with another child for the purpose of getting him/her to eat.
You might want to:
• Have older children help with food preparation, setting the table, serving younger children or helping with cleanup
• Provide child-sized furniture
• Use high-chairs for the infants and toddlers and utilize “booster-chairs” to adjust for smaller children in regular-sized chairs
• Offer pre-prepared snacks in containers children can open
• Have juice or milk poured or available in small pitchers for a family-style setting.

Planning Activities
Observe all of the children consistently to learn their skills and interests, then plan activities they find fun and interesting.
Enlist older children to help with younger children. They can entertain babies, read to preschoolers, put together a play or a puppet show, or teach a board game. Older children enjoy being valued for their input.
Some children really like helping, but be careful not to use all their time helping care for younger children. Being your assistant can be a way for older children to avoid their own age group and a way to escape peer conflicts.
Buy open-ended toys such as blocks, Lego® and other multiple use items that can be used by different age groups. Alternate and slightly change activities for the different age groups. For example, younger children paint and explore color, while older children use the same paint materials to express their ideas.
Look at mixed-age groups as an opportunity to learn about the different ages, individual needs and interests of all the children in your care.
Learn to meet their needs before they become demands. Children develop socially when they have opportunities to observe and play with older children, siblings and adults. They are then more likely to be flexible, cooperative, focused and socially-competent members of a community.

Further Resources
Books and videos are available at the Child Action, Inc. Resource Library. Here are some suggestions:
Books:
• Active Learning In A Family Day Care Setting by Susan McCartney
• Caring For Children In Family Child Care by Derry Koralek, Laura J. Colker, and Diane Trister Dodge
• The Creative Curriculum For Family Child Care by Diane Trister Dodge & Laura J. Colker
• The Incredible Indoor Games Book by Bob Gregson
## MARCH

### Get Moving Today!

<thead>
<tr>
<th>Sunday</th>
<th>Monday</th>
<th>Tuesday</th>
<th>Wednesday</th>
<th>Thursday</th>
<th>Friday</th>
<th>Saturday</th>
</tr>
</thead>
<tbody>
<tr>
<td>Start the month off with a game of follow the leader. Move around your house in different ways as someone copies your movements.</td>
<td>&quot;Chair Exercise&quot;. Move around, under, and over a chair; sit down and stand up using a chair; turn on music and wiggle &amp; stretch while sitting in a chair.</td>
<td>Loud and soft – first walk on your tip toes trying to be really quiet, then stomp using your whole foot trying to be really loud.</td>
<td>Tear newspaper into long strips – crunch them up into balls – throw the balls into a basket – Rip-Crunch-Throw.</td>
<td>Be a superhero! Think about all of your favorite superhero’s and then spend some time moving just like they would.</td>
<td>Ask someone to go for a walk with you and as you walk, make up a little song about moving and having fun together.</td>
<td>Take a few minutes today to lie on the floor and stretch your body from head to toe. Take some deep breaths and relax as you reach and then relax.</td>
</tr>
<tr>
<td>Using paper plates as pretend stones; make an indoor nature trail through your house. Walk through the nature trail by only stepping onto the make believe stones.</td>
<td>Make a pile of paper balls by crunching recycled paper. For one minute throw these balls all over the playing space – making a blizzard of balls. Collect them and do it again.</td>
<td>Using the balls from yesterday put them in a pile. Crab walk with one ball at a time on your tummy, carry it across the room. Move all the balls to a new pile.</td>
<td>Take a &quot;spring is here&quot; walk. Swing your arms as you walk quickly. Notice all the signs of spring!</td>
<td>How many different ways can you carry a sock as your move around the house?</td>
<td>Crawling is a great way to work on the muscles in your arms. Try to crawl around your home for a few minutes – take a break and do it again.</td>
<td></td>
</tr>
<tr>
<td>Turn on some music and take turns choosing a way to move.</td>
<td>Leaping! Put pillows on the floor and practice your leaping skills. Push off of your back leg and reach with your front leg.</td>
<td>Work on your locomotor skills – go outside and practice walking, running, galloping, skipping, jumping and hopping.</td>
<td>Pickup marbles with your fingers and toes. Lie on the floor and blow the marbles across the floor.</td>
<td>Pull a wagon around outside as you pick up sticks. Create and obstacle course with the things you find.</td>
<td>Make it backwards day. Move from room to room backwards. Try to high and low, fast and slow.</td>
<td></td>
</tr>
<tr>
<td>Get outside today and play &quot;I Spy&quot;. Each time one of you says, “I spy”, you have to all walk, run or gallop to that object.</td>
<td>Animal Action Fun! One person says the name of an animal and the other person has to move around the house like that animal would.</td>
<td>Using a scarf or handkerchief, practice your self-toss and catch skills. Watch the scarf with your eyes and move your body so the scarf can land in your hands.</td>
<td>Have an adult write your name really big on a sheet of paper, and then put your body into the shapes of each letter. Can you do this standing up? Can you do this laying on the floor?</td>
<td>Make up a nonsense word. Now make up a movement to go with that word.</td>
<td>Twins – for 2-5 minutes pretend as if you are connected to someone else and the two of you have to move exactly the same way.</td>
<td></td>
</tr>
<tr>
<td>Pretend to have a beach party. Turn on some beach music and dance. Pretend to surf and swim as you work your body.</td>
<td>Pretend your arms or foot or elbow or nose is a crayon and draw a big picture of a rainbow in your home.</td>
<td>Put a sock puppet on your hand and have it travel high, low, fast, slow, curvy and straight.</td>
<td>Pretend to be a balloon – first without air, then being blow up, then floating around the room, and then being popped!</td>
<td>Work on your tossing and catching skills with someone. Toss it right to their hands.</td>
<td>Balance on two body parts. How about three parts or four or ever five body parts?</td>
<td></td>
</tr>

Rainy Day Ideas

It can be tough to plan physical activity when outdoor play is cancelled due to poor weather conditions. Use these ideas to help your class be physically active indoors:

- **Start a parade** around the classroom. Children can line up and march, gallop, skip, tip-toe, walk sideways and backwards

- **Move like an animal**—hop like a rabbit, crawl like a dog, waddle like a duck, stomp like an elephant, soar like a bird, swim like a fish

- **Play movement games like** ring around the rosey, musical squares, the hokey pokey, duck duck goose, or do the chicken dance

- **Turn on the music and dance.** Children can dance to the music on their own, or play a song that provides verbal instructions

- **Play Simon Says.** To ensure children stay active throughout the session, do not ask them to sit out if they make a mistake

- **Set up indoor hop scotch** using carpet squares or hula hoops

- **Stretch.** Children can circle their arms, shrug their shoulders, touch their toes, reach high toward the sky, and twist at the waist

- **Volley a balloon**

- **Move like weather.** Children can move like a tree in the wind, stomp like thunder, and spin like a tornado

- **Use bean bags** to toss to a partner, toss into a container or basket, balance on the childrens’ heads, or play hot potato

- **Try a children’s exercise DVD or video**
Physical Activity Break

**SET UP:**

- Choose a 1-2 minute physical activity; and
- Gather materials needed for the activity.

**ACTION:**

- Make sure everyone has enough space, and conduct the physical activity you chose.
PPT Part C – Facilitating Change in Your Program (60 min.)

PRESENT:

- PPT Part C: Facilitating Change in Your Program.
- Discuss the Action Period; and
- Discuss that providers will complete their Action Plan by:
  - Connecting their objectives to policies by identifying action steps needed to facilitate change.

Technical Assistance Groups

ACTION:

- Use the *Action Plan Worksheet* located in this guide to facilitate discussion; and
- Instruct providers to follow along with the discussion using the Action Period checklist and *Provider Guide* in the Learning Session 4 Participant Handbook.

ACTION:

- Welcome providers back to the group; and
- Using the *Action Plan Worksheet* on the following page, discuss:
  - How to implement changes in the area of policies;
  - How to document and communicate these healthy changes on their storyboards; and
  - Answer any questions they may have.
- Have providers use this time to complete the “policy” column on their *Action Plan Worksheet*. 
**Action Plan Worksheet**

**Start Date:** December

**Provider Name:** ABC Family Child Care

**Goal:** Introduce and incorporate daily physical activity into our program to help children develop healthy habits

<table>
<thead>
<tr>
<th>Child</th>
<th>Family</th>
<th>Provider</th>
<th>Environment</th>
<th>Policies</th>
</tr>
</thead>
<tbody>
<tr>
<td>Discuss physical activity with the children and how being active will help them grow up strong and healthy (Ongoing beginning December)</td>
<td>Send home resources to families about the importance of physical activity (December, repeating as new resources are available)</td>
<td>Incorporate physical activity resources into staff meetings (Ongoing beginning December)</td>
<td>Based on program environmental assessments, arrange space to allow children to be physically active without interfering with each other (late December)</td>
<td>Research physical activities and resources for children to incorporate into the program (Ongoing beginning December)</td>
</tr>
<tr>
<td>Discuss with children what types of physical activities they like (Ongoing beginning December)</td>
<td>Create “Physical Activity Kits” that include materials and physical activities for families to check-out from the program’s lending library to use at home with children (January)</td>
<td>Identify spaces where children may be physically active (early December)</td>
<td>Identify and increase the amount and variety of portable play equipment and loose play objects that promote physical activity such as balls, wheeled toys, hoops, soft objects (Ongoing beginning December)</td>
<td>Research program policies for promoting physical activity in infants, toddlers, and preschoolers, to include in parent handbook (December)</td>
</tr>
<tr>
<td>Provide opportunities for adult-led physical activities and unstructured physical activities both indoors and outdoors on a daily basis (Ongoing beginning January)</td>
<td>Provide “wiggle breaks” throughout the day to encourage movement with children (Ongoing beginning January)</td>
<td>Assess whether or not classroom environments are conducive for physical activity (early December)</td>
<td>Incorporate time for adult-led physical activities and unstructured physical activity into daily lesson plans (Ongoing beginning December)</td>
<td>Develop written policies to include parent handbook. Policies will cover: amount of time allotted for physical activity, type of physical activity offered, spaces available for physical activity, provider’s role in leading physical activity, physical activity added to other curricular areas, daily outdoor physical activity and weather policy, safety protocols and injury prevention, and not withholding physical activity as punishment for bad behavior or poor academic performance (January)</td>
</tr>
<tr>
<td>Take photos of children engaging in various physical activities and display on program’s bulletin board (Ongoing beginning January)</td>
<td>Attend trainings to learn more about best practices on engaging infants, toddlers, and preschoolers in physical activity (Ongoing, as available, beginning January)</td>
<td>Be physically active with the children in your care (Ongoing, as available, beginning January)</td>
<td>Be physically active with the children in your care (Ongoing, as available, beginning January)</td>

PPT Part D Extending Your Learning – The Provider, Families and Policies (15 min.)

**PRESENT:**

- PPT Part D: Extending Your Learning: The Provider, Families and Policies

**ACTION:**

- Discuss with providers the importance of physical activity through:
  - Provider health;
  - Family engagement; and
  - Policies.
- Inform providers that all documents can be downloaded electronically from the *Healthy Kids Healthy Future* website (www.healthykidshealthyfuture.org).
be an active family

10 tips for becoming more active as a family

Physical activity is important for children and adults of all ages. Being active as a family can benefit everyone. Adults need 2½ hours a week of physical activity, and children need 60 minutes a day. Follow these tips to add more activity to your family’s busy schedule.

1. set specific activity times
   Determine time slots throughout the week when the whole family is available. Devote a few of these times to physical activity. Try doing something active after dinner or begin the weekend with a Saturday morning walk.

2. plan ahead and track your progress
   Write your activity plans on a family calendar. Let the kids help in planning the activities. Allow them to check it off after completing each activity.

3. include work around the house
   Involve the kids in yard work and other active chores around the house. Have them help you with raking, weeding, planting, or vacuuming.

4. use what is available
   Plan activities that require little or no equipment or facilities. Examples include walking, jogging, jumping rope, playing tag, and dancing. Find out what programs your community recreation center offers for free or minimal charge.

5. build new skills
   Enroll the kids in classes they might enjoy such as gymnastics, dance, or tennis. Help them practice. This will keep things fun and interesting, and introduce new skills!

6. plan for all weather conditions
   Choose some activities that do not depend on the weather conditions. Try mall walking, indoor swimming, or active video games. Enjoy outdoor activities as a bonus whenever the weather is nice.

7. turn off the TV
   Set a rule that no one can spend longer than 2 hours per day playing video games, watching TV, and using the computer (except for school work). Instead of a TV show, play an active family game, dance to favorite music, or go for a walk.

8. start small
   Begin by introducing one new family activity and add more when you feel everyone is ready. Take the dog for a longer walk, play another ball game, or go to an additional exercise class.

9. include other families
   Invite others to join your family activities. This is a great way for you and your kids to spend time with friends while being physically active. Plan parties with active games such as bowling or an obstacle course, sign up for family programs at the YMCA, or join a recreational club.

10. treat the family with fun physical activity
    When it is time to celebrate as a family, do something active as a reward. Plan a trip to the zoo, park, or lake to treat the family.

Go to www.ChooseMyPlate.gov for more information.
Check-Out (15 min.)

SET UP:

• Set up any take-away materials assembly line style on the check-in tables;
• Provide a container for providers to drop off nametags; and
• Assign one person to highlight (or otherwise record) provider’s name on a list after nametags are collected and take-away items are picked up.

ACTION:

• Remind providers about next steps. When they get back to their home, they need to:
  – Begin implementing changes in the area of policies;
    • Complete the Go NAP SACC instruments to assess their practices; and
    • Finalize their storyboard with the change(s) made from LS2-LS4.
  – Bring back to LS5
    – Completed Go NAP SACC instruments;
    – Completed storyboard; and
    – Completed Action Plan Worksheet.

ACTION:

• Thank providers for being a part of the Learning Collaborative; and
• Request that providers drop their nametag in the container on the check-in table before leaving.

ACTION:

• Remind providers that the next Learning Session will be held on date: ____________; and
• Set aside 15 minutes to sit down with your co-trainer(s) and volunteers to discuss and record first thoughts about what went well and what could be improved for future sessions. You may also want to schedule a longer meeting at a later date.
LS4 Action Period

Providers Should:

- Review the “policy” column on the *Action Plan Worksheet* to begin implementing changes in their home;
- Complete the *Go NAP SACC* instruments;
- Complete the *Action Plan Worksheet*; and
- Finalize their storyboard with the change(s) made between LS2-LS5.

Bring back to Learning Session 5:
- Completed *Go NAP SACC* instruments;
- Completed storyboard; and
- Completed *Action Plan Worksheet*.

Technical Assistance

- Call providers to set up a convenient time to visit. Try to set up the visit for as soon after the Learning Session as you can, so that you can support them as they prepare to complete the Action Period;
- REMEMBER to document your Technical Assistance visits on the TA form; and
- Ask if there is anything that they especially want to focus on or have questions about.

During the Visit:

- Ask what they thought about the Learning Session;
- Offer assistance with the Action Period Tasks;
- Walk through the *Action Plan Worksheet* in the *Provider Guide* in the Participant Handbook and help the provider understand how to implement the action steps they developed during the Learning Session;
- Walk through the *Go NAP SACC* instruments in the *Provider Guide* in the Participant Handbook:
  - Explain to providers that they will complete a post *Go NAP SACC* assessment to identify the best practices they are meeting and any changes they may have made; and
  - Refer to their copy of the *Go NAP SACC* instruments completed during the Learning Session 1 Action Period if they need additional assistance.
- Review items they need to bring back to LS5; and
- Ask if there is anything else they would like to talk about. Encourage them to reach out to you at any time. Be sure they have your contact information
