Learning Session 5: Overview

Learning Session 5: Reducing Screen Time & Celebrating Success

Overview

Learning Session 5 (LS5) provides a rationale for the role ECE providers play in making healthy changes through reducing screen time. It builds on the experiences, knowledge, and action planning of the previous Learning Sessions in order to equip Leadership Teams, in collaboration with the program staff to continue the process of change. Participants will share their process of change through storyboard presentations.

Key content includes information on

- Best practices and strategies for reducing screen time;
- Celebration of strengths and successes through storyboard presentations;
- Action planning and continuing the process of change;
- National, State, and Local support for ECE providers; and
- Professional development opportunities to enhance learning.

Post-session (Action Period)

Program Leadership Teams utilize their Action Plan Worksheet to engage their program staff to:

- Continue the action planning process; and
- Identify and act on new ways to continue to support healthy changes.

Objectives

At the end of the Learning Session, participants will:

1. Describe best practices for reducing screen time and identify change opportunities within their program;
2. Use storyboard presentations to show at least one change within their program that supported healthy eating, physical activity, screen time, and breastfeeding support;
3. Be able to identify local organizations/agencies that support early childhood providers; and
4. Be prepared to continue their Action Plan to support implementation of best practices for healthy eating, physical activity, screen time and breastfeeding support in their program.
